**FORMATION OF INDUSTRIALLY FINANCIAL GROUPS IN THE
CONTEXT OF TRANSBORDER COOPERATION OF UKRAINE
AND POLISH REPUBLIC IN THE CONTEXT
OF THE STATE ENTRANCE IN EU**

Abstract

Features of forming industrially financial groups (IFG) in the context of becoming market relations in Ukraine have been exposed in the article. It has been given the general features and differences of their construction, taking into account the home and foreign experience. It has been shown their socio-economic role in realization of state strategic purposes while entering in European Union. It has been proposed a model of cooperation organization between industrially financial groups participants from the various states, in particular creation of the purposeful transborder Ukrainian-Polish industrially financial groups.

Key words

Industrially financial groups (IFG), Economic Integration, transborder cooperation.
